

PARUL UNIVERSITY
FACULTY OF ENGINEERING & TECHNOLOGY
B.Tech. Winter 2021- 22 Examination

Semester: 6
Subject Code: 203105395
Subject Name: Software Testing & Quality Assurance

Date: 14/10/2021
Time: 2:00pm to 4:30pm
Total Marks: 60

Instructions:

1. All questions are compulsory.
2. Figures to the right indicate full marks.
3. Make suitable assumptions wherever necessary.
4. Start new question on new page.

Q.1 Objective Type Questions**(15)**

1. ----- are the quantitative measures used to estimate the progress, quality, productivity and health of the software testing process.
2. ----- is called module under test.
(a) Driver (b) Stub (c) Software (d) None of the above
3. Which type of testing will be done at User site?
4. A methodology for quality improvement of customer satisfaction and benefits is
(a) SPICE (b) TQM (c) Six Sigma (d) CMM
5. Fault based testing & scenario based testing is a type of ----- testing method.
6. ----- is also known as dynamic testing, where we are ensuring that "we have developed the product right."
7. ----- is a systematic attempt to specify a threat to project plan.
8. Risk should include:
(a) Probability of occurrence a problem (b) Impact of problem (c) Test cases (d) Both a&b
9. Data Flow Testing is a type of ----- testing.
10. ----- requirement refers to companies involved in design, production, manufacture and maintenance of products
(a) ISO 9001 (b) ISO 9002 (c) ISO 9003 (d) All of the above
11. Every node of a regular graph has ----- degree.
12. TQM stands for?
13. ----- is the practice of running a program with the aim of identifying errors.
14. What is not the factor of software quality
(a) Reliability (b) Portability (c) Functionality (d) Efficiency
15. BVA in black box testing is known as?

Q.2 Answer the following questions. (Attempt any three)**(15)**

- A) List different Software testing principles?
- B) Explain CMM in details?
- C) What is decision table? Draw decision table for login screen?
- D) Explain different identifiers of Test plan?

Q.3 A) Explain difference between Manual and automated testing?**(07)**

- B) Draw and explain McCall's Quality Factor in detail?

(08)

OR

- B) Explain different black box testing methods with suitable examples?

(08)**Q.4 A) What are the primary objective when we test a software. Briefly outline the requirement specification of an ATM. Write the test cases on ATM transactions?****(07)**

OR

- A) Explain Fault based testing in detail?

(07)

- B) Explain Cyclomatic Complexity in details with suitable example?

(08)
