Assignment 4

Chapter 4: Hadoop Related Tools

5 Marks Questions

1. Explain the architecture and features of HBase.
2. Describe Hive architecture and HiveQL operations.
3. Explain Pig Latin and Pig data model with examples.
4. Compare Pig and Hive.
5. Explain Cassandra and its features.

4 Marks Questions

1. Explain Hive data types and file formats.
2. Describe HiveQL data definition and manipulation commands.
3. Explain the use of JSON in Hadoop tools.
4. Explain Pig Latin overview with suitable examples.
5. Explain Jasper Reports and its applications.

2 Marks Questions

1. Define HBase.
2. What is Hive?
3. Define Pig Latin.
4. What is Cassandra?
5. Define HiveQL.
6. What is JSON?
7. State any two features of HBase.
8. Give two differences between Pig and Hive.
9. What is Jasper Reports?
10. Define Pig data model.
